

INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, JUNE 14, 2006 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 2

CURRENT SITUATION:

Initial attack activity was light nationally with 101 new fires reported. Four new large fires (*) were reported, one each in the Southwest, Eastern Great Basin, Rocky Mountain and Southern Areas. Five large fires were contained, one each in the Southwest, Eastern Great Basin, Alaska, Western Great Basin and Southern Areas. Very high to extreme fire indices were reported in Alaska, Arizona, Colorado, New Mexico, Nevada, Kansas, Nebraska, Wyoming, North Dakota, Texas and Utah.

SOUTHWEST AREA INCIDENTS/LARGE FIRES:

NAVAJO MOUNTAIN 1, Navajo Regional Office, Bureau of Indian Affairs. A Type 1 Incident Management Team (Oltrogge) is assigned. This fire is near Page, AZ in timber. Residential areas, electronics on top of Navajo Mountain, power lines, and herb gathering grounds are threatened. Navajo Mountain area roads and trails are closed. Torching, spotting, uphill runs and backing fire were observed.

POTATO COMPLEX, Apache-Sitgreaves National Forest. A Type 2 Incident Management Team (Raley) will assume command today. This complex is 10 miles northwest of Heber-Overgaard, AZ in pinyon pine, juniper and grass. Four major power lines supplying Phoenix and Tucson remain threatened. A mandatory evacuation order remains in effect for Chevelon Retreat and Chevelon Acres. Low relative humidity and high winds are hampering containment efforts. Individual and group tree torching were observed. Burn out operations are ongoing.

SKATES, Gila National Forest. A Fire Use Management Team (Hall) is assigned. This lightning caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 12 miles northeast of Silver City, NM in timber. State Highway 15 was closed due to burn out operations. Moderate fire behavior with good ground fuel consumption was reported.

RANGER 2, Truxton Canyon Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Reinarz) is assigned. This fire is 50 miles northwest of Peach Springs, AZ in brush and grass. No fire spread was reported. Decrease in acreage is due to more accurate mapping.

WARM, Kaibab National Forest. A Fire Use Management Team (Hahnenburg) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning three miles south of Jacob Lake, AZ in ponderosa pine litter. Backing fire behavior was reported.

CREWS, Cimarron District, New Mexico State Forestry. This fire is 12 miles southeast of Raton, NM in pinyon pine and juniper. Single and group tree torching were observed. Talus slopes and rugged topography are hampering containment efforts.

WILLOW, Coronado National Forest. This fire is 15 miles south of Sonita, AZ in grass. Low intensity smoldering and creeping were reported.

WEST, Kaibab National Forest. This lightning-cause Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning eight miles southeast of Tusayan, AZ in timber. No new information was reported.

INDIAN, Kaibab National Forest. This fire is 19 miles southwest of Jacob Lake, AZ in grass. No new information was reported.

PHD – Phoenix Field Office, Bureau of Land Management

EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

ANNABELLA, Fish Lake National Forest. A Type 1 Incident Management Team (Muir) is assigned. This fire is three miles southwest of Annabella, UT in timber. Steep, rugged terrain, heavy fuel loading, and difficult access are hampering containment efforts. Creeping, smoldering and interior burning were reported.

NORTH SAND MOUNTAIN, Richfield Field Office, Bureau of Land Management. This fire is 25 miles west of Nephi, UT in grass, brush and pinyon pine. No new information was reported.

ROCKY MOUNTAIN AREA INCIDENTS/LARGE FIRES:

THOMAS, Little Snake Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Mullenix) has been ordered. This fire is 36 miles west of Maybell, CO in pinyon pine and juniper. Numerous residences and structures are threatened. County roads 116 and 56 have been closed. Running, spotting and crowning were observed.

BULL RIDGE, Wind River Agency, Bureau of Indian Affairs. This fire is northwest of Lander, WY in brush, timber and grass. Smoldering was observed. Inaccessible terrain is hampering containment efforts.

ALASKA AREA INCIDENTS/LARGE FIRES:

PARKS HWY, Fairbanks Area Forestry, Alaska Division of Forestry. A Type 2 Incident Management Team (Kurth) is assigned. This fire is one mile southeast of Nenana, AK in black spruce, tundra and grass. Numerous residences and recreational cabins, native allotments, commercial property and utility infrastructure remain threatened. Structure protection remains in place. Sporadic precipitation occurred. Most fire activity is along the southeast flank, with running and isolated torching observed.

SOUTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

FERGUSON ROCK SLIDE, Sierra National Forest. A Type 2 Incident Management Team (Johnson) is assigned. This incident is northeast of Mariposa, CA. The area surrounding the rock slide along the Merced River remains closed to all public access. Downstream fisheries and tourism infrastructure remain threatened.

OUTLOOK:

Red Flag Warnings: Wednesday afternoon and evening for most of west central, eastern and southern Utah for strong south winds and low relative humidity. For northern and northwest Arizona, and northwest New Mexico for strong winds and low humidity. For Colorado, southern Wyoming and western Nebraska for strong winds, low relative humidity, and dry lightning.

Fire Weather Watches: Thursday afternoon and evening for southeast Utah for strong winds and low relative humidity.

Weather Discussion: A high pressure ridge will continue over the central portion of the country while a low pressure trough moves over the West. Dry conditions and strong winds will continue today over portions of the Great Basin, Southwest, and Rocky Mountain Areas. Dry thunderstorms are possible over portions of the Four-Corner region. A high pressure ridge will build into eastern Alaska with potential for afternoon thunderstorms across the interior.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<p>Southwest Area Partly cloudy, continued dry and windy to breezy across Arizona and far western New Mexico. Mostly sunny and hot across parts of eastern New Mexico and west Texas, except partly cloudy with isolated thunderstorms across the eastern New Mexico and west Texas. Isolated dry thunderstorms across western New Mexico.</p>	90 to near 110 lower elevations. 70 to 90 mountains.	5 to 15%, except 15% to 35% portions of west Texas.	Southwest 15 to 30 mph and gusty across much of northern Arizona and northwestern New Mexico. South to east 10 to 20 mph eastern New Mexico and west Texas. West to southwest 10 to 20 mph elsewhere.
<p>Eastern Great Basin Area Idaho, Bridger-Teton: Partly cloudy. Showers and thunderstorms in the west, scattered showers and thunderstorms in the east. Northern Utah: Partly cloudy with isolated thunderstorms; which will mostly be dry in central Utah. Southern Utah, Arizona Strip: Partly cloudy, continued windy. Isolated afternoon thunderstorms.</p>	Idaho, Bridger-Teton: 44 to 64 mountains, 61 to 74 valleys. Northern Utah: 62 to 72 mountains, 72 to 80 west valleys, up to 100 east valleys. Southern Utah, Arizona Strip: 67 to 76 mountains, 76 to 97 valleys. 97 to 100 low deserts.	Idaho, Bridger-Teton: 50 to 67% mountains, 60 to 50% valleys. Northern Utah: 24 to 65% mountains, 16 to 24% west valleys, 6 to 11% east valleys. Southern Utah, Arizona Strip: 15 to 20% mountains, 6 to 15% valleys.	Idaho, Bridger-Teton: West 10 to 20 mph gusting to 30 mph. Northern Utah: West Utah: Northwest 15 mph. East Utah: Southwest 11 to 20 mph gusting to 40 mph. Southern Utah, Arizona Strip: Southwest 15 to 25 mph gusting to 35 mph.
<p>Rocky Mountain Area Widely scattered dry lightning, otherwise partly cloudy, hot and windy.</p>	95 to 100, with mid 70s to lower 80s in the mountains.	5 to 15%, with 15 to 25% in the mountains.	Southwest 20 to 45 mph.
<p>Alaska Area Partly to mostly cloudy with a few showers or thunderstorms in the central and eastern interior. Mostly cloudy with scattered showers in the south and southwest.</p>	60s to around 80 in the interior. 50s and 60s in the south and southwest.	25 to 45% in the interior. Above 45% in the south and southwest.	North to northeast winds to 15 mph in the central and northern interior. Variable winds to 10 mph in south central Alaska.
<p>Southern California Area Areas of morning low clouds and fog into the coastal valleys, otherwise mostly sunny.</p>	65 to 80 mountains. 70 to 80 valleys. 80 to 90 upper deserts. 95 to 105 lower deserts.	50 to 70% coastal areas. 30 to 50% valleys and coastal slopes. 15 to 30% mountains. 10 to 20% deserts.	Southwest to northwest 10 to 20 mph with higher gusts.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<p>Western Great Basin Area Partly to mostly cloudy with a few showers and an isolated thunderstorm across the north. Mostly sunny and breezy across the south.</p>	<p>Northern valleys: 65 to 80. Southern valleys: 81 to 107. Northern mountains: 55 to 65. Southern mountains: 67 to 77.</p>	<p>Northern valleys: 15 to 30%. Southern valleys: 6 to 12%. Northern mountains: 25 to 40%. Southern mountains: 10 to 15%.</p>	<p>West to southwest at 10 to 15 mph with afternoon gusts of 25 to 30 mph.</p>
<p>Eastern Area A chance of showers and a few thunderstorms over the Delmar Peninsula. A slight chance of showers and thunderstorms across Minnesota. Fair elsewhere.</p>	<p>65 to 75 over the northeast and the upper peninsula of Michigan. 85 to 90 over southern Iowa and Missouri. 75 to 85 elsewhere.</p>	<p>30 to 40% across the northwestern Great Lakes. Greater than 40% elsewhere.</p>	<p>Light to moderate winds over the Eastern Area.</p>
<p>Southern Area No information was reported.</p>

Backfiring or Burnout Operations

Backfiring or burnout operations are often critical operations in the fire management job. If planned and executed correctly, they can speed control of a fire and greatly reduce suppression costs. Conversely, if done incorrectly, they can endanger personnel, extend control time and increase cost. Safety considerations must always be given first priority. No backfiring or burnout action, regardless of strategic importance or other critical factors, is worth risking one human life!

- Backfiring or burnout operations must not jeopardize the safety of personnel or equipment or compromise suppression actions on adjacent portions of the fireline.
- One qualified individual must be responsible for controlling and directing the firing operation.
- Before beginning backfiring or burnout operations, assure that:
 - Lookouts are posted.
 - Communications are established with both firing and holding teams.
 - Escape routes and safety zones are established, known to all resources, and will not be compromised by the firing operations.
- If it is necessary, and time allows, concentrations of fuel adjacent to and inside the control line should be removed.
- Fuel outside the control line may be removed; concentrations of fuel may be scattered, covered with foam or wet down, or treated by ground or aerial retardant applications.
- Critical points such as hooks in the fireline, saddles or canyon may require extra holding forces.
